Sticker Prompts (clear)

```

2. 柔和日系 — 水彩插畫風

```

3. 夢幻 — 吉卜力動畫感

```
Create a dreamy hand-painted Japanese animation portrait of a young Asian woman based on @image1, in a Studio-Ghibli-inspired visual style. Keep her real facial structure, hairstyle and identity from the reference, but reinterpret her with soft rounded anime-style features, slightly larger expressive eyes, gentle nose and warm smile. Use traditional cel-painted anime shading combined with watercolor-like textures, visible brush strokes, soft lighting and warm pastel tones. Skin should look smooth and luminous, with subtle blush on cheeks. Hair should be painted in soft flowing strokes with gentle highlights. Mood should feel nostalgic, peaceful and magical, like a quiet scene from a classic Ghibli film. Background should be simple and airy (soft sky, light clouds or warm blurred scenery) so the character stands out. Framing: half-body or bust portrait, 1:1 aspect ratio, high resolution, clean composition. Negative: photorealism, 3D render, realistic skin texture, harsh shadows, western cartoon style, chibi, exaggerated anime eyes, trademarked characters, text, watermark, distortion, extra limbs.
